

ROL5 RAPID CLAMPING SYSTEM

Rolleri latest big innovation is **ROL5** System, a mechanic fast clamping system for standard Promecam upper tools, which doesn't require any change in the press brake.

With **ROL5** System you can **mount and remove upper tools vertically without any modification. By tightening the central screw, tools get aligned and seated and ready to work.**

ROL5 System is composed by:

- Frontal clamp for fast clamping
- Intermediate
- Standard back clamp
